DETAILED ACTION

Response to Arguments

1. Applicant's arguments with respect to claims 1-4,7,8 and 12 have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-4,7,8 and 12 are rejected under 35 U.S.C. 102(b) as being anticipated by Mari-Roca et al (5,390,085).
3. Mari-Roca discloses a light assembly comprising a frame having a frame opening (inherent in a liquid crystal display device), a light source disposed at a side of the frame for projecting light toward and opposing side of the frame (14,208) and a reflective surface disposed at the opposing side (208);
 - The reflective surface comprises a flat and curved reflective surface (208);
 - Power supply means or supplying the light source with electrical current (inherent).
 - The light source comprises a directional light source (14,114)

Claim Rejections - 35 USC § 103

4. Claim 6 is rejected under 35 U.S.C. 103(a) as being unpatentable over Mari-Roca as applied to claim 4 above, and further in view of Tortola et al.

5. Mari Roca discloses the light assembly of claim 1. Tortola discloses a compact hand held computer video screen with a battery compartment, a battery power source; an on/off power switch and electrical circuitry adapted to connect the battery power to the light source in response to a position of the power switch. It would have been obvious to one of ordinary skill in the art at the time the invention was made to have the power supply means of Tortola, since as taught by Tortola, such a power supply means facilitates a portable video device and rids the need for a plug in power cord.

Allowable Subject Matter

6. Claims 5,9,10,11 and 30-34 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

7. Claims 13- 29 are allowed.

8. Reasons for allowable subject matter are in the previous office action.
